-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Response to Amendment***

The following is in response to the amendment filed on August 13, 2004.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 19-21 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventors, at the time the application was filed, had possession of the claimed invention. In claim 16, the step of cooling comprises contacting the surface area of the roll during manufacture with a cooling liquid. Claims 19-21, which depend from claim 16, present additional steps of cooling, namely claim 19 recites contacting the surface of the roll during manufacture with a roll or band provided with a cooling cover, claim 20 recites contacting the surface of the roll during manufacture with a cooling beam pressure-loaded against a roll, and claim 21 recites blowing a gas or gas/fluid mixture against the surface of the roll. These features of claims 19-21 are presented in the specification as being alternative cooling steps to the one recited in claim 16. There is no disclosure or suggestion for combining the cooling steps. See specification page 16, third paragraph to page 18, second paragraph.

Art Unit: 1731

***Allowable Subject Matter***

Claims 1-3, 6, 8-10, 12, 14, 16, 17, and 22 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Claims 1-3, 6, 8, and 9 are allowed, because the prior art does not disclose or suggest a paper processing roll having a surface that is heat treated prior to use, whereby the roll has a coating and the surface of the roll is machined at increased temperature before and/or after coating.

Claims 10 and 12, because the prior art does not disclose or suggest a method of producing a paper making roll comprising hot-grinding and then coating.

Claim 14 is allowed, because the prior art does not disclose or suggest a method of producing a paper making roll comprising balancing while hot and then treating the surface while hot.

Claims 16 and 17 are allowed, because the prior art does not disclose or suggest cooling the roll surface to approximate the temperature conditions of the roll during manufacture utilizing a cooling liquid.

Claim 22 is allowed, because the prior art does not teach or suggest cold grinding a roll with a negative profile of a hot profile that was determined while the roll was hot.

***Response to Arguments***

Applicant's arguments filed August 13, 2004 have been fully considered regarding the indication of allowable subject matter.

Art Unit: 1731

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
